Triangle	16.5*12 inch	Acoustic Foam Panel	4		
		Strong Double-sided Tape	2 Sheets		

Note:Each sheet of Strong Double-sided Tape contains 30 dot stickers.

Installation

Step 1. Prepare the Surface

Be sure that the surface where you're going to install the panels is free from dirt, peeling paint, or any other loose particles. If you use water to clean the surface, allow it to dry completely before installation.

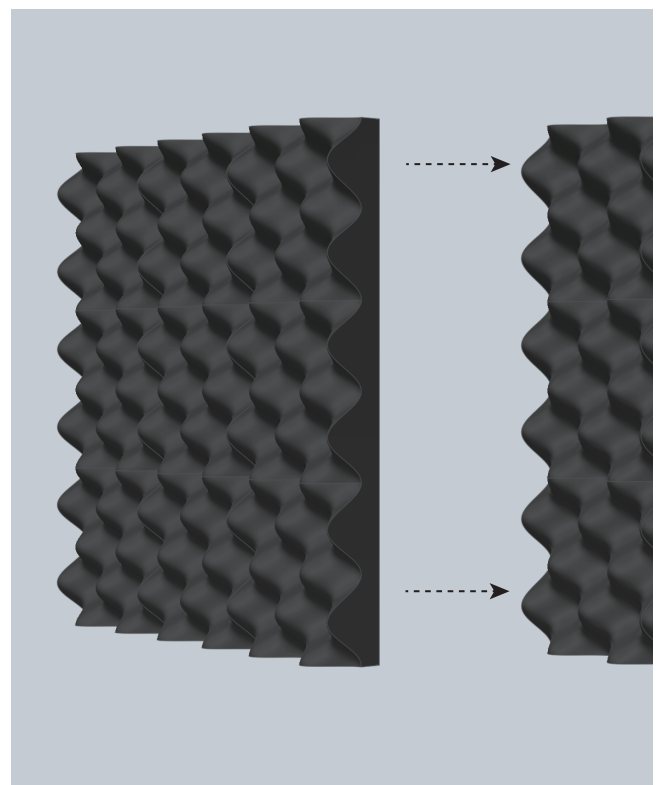

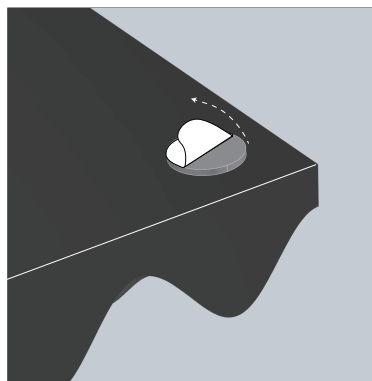

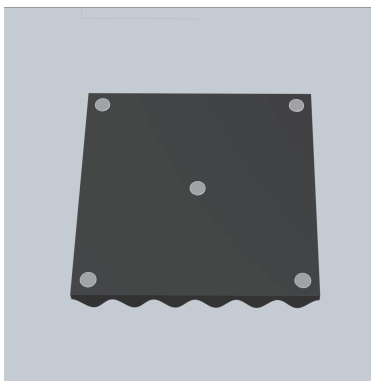

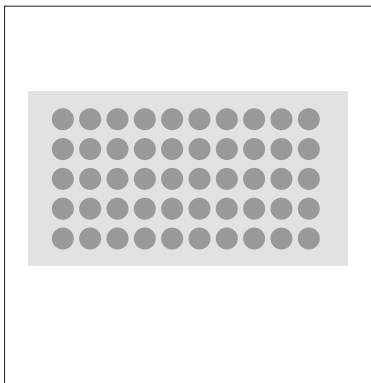

Step 2. Cut Panels to Size (Optional)

If the space that you wish to treat is smaller than the size of panels, the foam panels can be easily cut to fit any space by using a sharp utility knife, scissors, or electric knife.

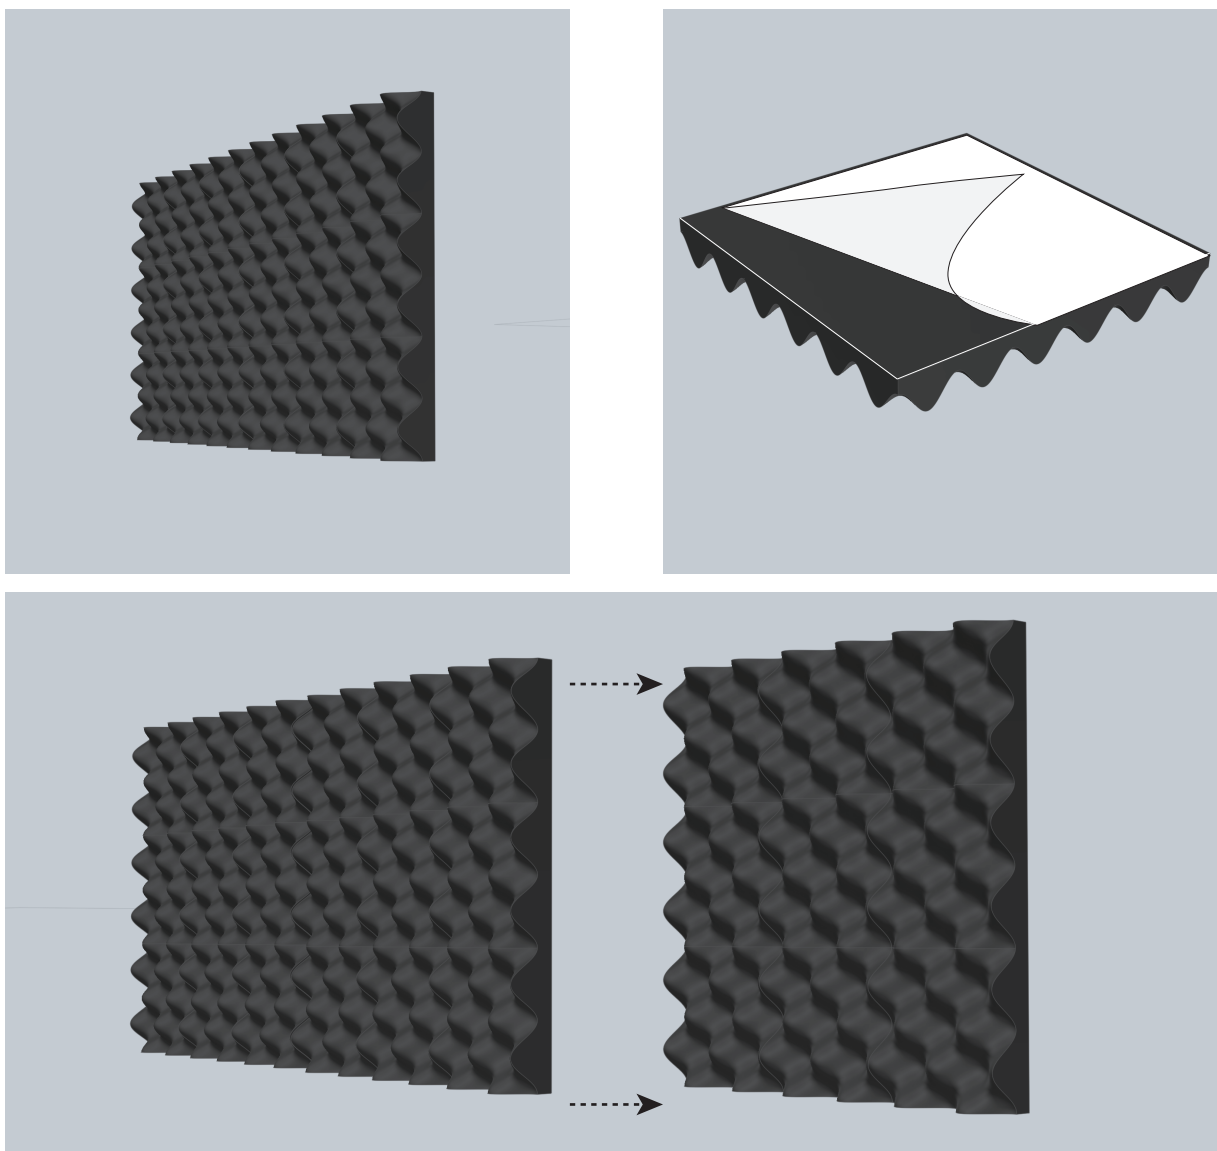

Step 3. Install the Panels

We have four different sizes of panels.

- For **Standard, Medium and Triangle** sizes, we offer strong double-sided tape. First stick enough quantities of dot stickers on the back of panels, then apply panels to the surface you want to treat.

- For the **Extra Large** size, they come with self-adhesive glue on the back. Just tear off the paper on the back and stick the panels at will.

Tips:

- Keep the panels away from fire.
- When using cutting tools, please wear gloves for protection.
- Avoid storing the panels in a wet environment.
- Due to vacuum packaging, the panels may deform. Soaking them with warm water then drying them up can help resume the original shape.
- If you have any questions, please don't bother to contact us. We will definitely reply you within 24 hours and solve your problems in time.

About Starfavor

Starfavor was founded in 2019 by a group of descendants from a family of instrument craftsmen. Inspired by their fathers, they have a deep love for the music industry and aspire to uphold traditional craftsmanship while combining modern innovative technology to create new and exciting music equipment.
